Now, when you right click on the highlighted variation, a popup menu is displayed. You can check or uncheck the variation or check or uncheck all the variations. By checking the variation you are selecting that variation to be printed in the **Transfer Payment Summary report** and/or **Worksheet Item Summary report**. Notice that there are three checked variations

Edit variation

Check/Uncheck highlited variation

Check all variations

Uncheck all variations

Nevermind

When the print menu is displayed, the **Transfer Payment Analysis report** and **Worksheet Summary report** will be printed for the three checked variations.

This option is most useful when you have created many support variations for a client; it allows you to compare the selected variations using a one page summary for each variation, rather than having to print out the full set of worksheets for each variation.
