**RESIDENTIAL CREDITS**

 Don't use residential credit in support calculation.  
 Method 1 - Calculate residential credit by using a percentage of the net support obligation; that percentage is based upon number of overnights with non-custodial  
 Method 2 - Calculate residential credit by using a percentage of total expenses entered in Table on the right; that percentage is based upon number of overnights with non-custodial parent.  
Expenses are those incurred by the non-custodial parent or expenses saved by the custodial parent.  
 Method 3 - Same as Method 2 except don't use actual number of overnights; just use Table expense totals.
